## Reasonable Accommodation Verification Form for an Emotional Support Animal (ESA)

otadont o tramo.
ProposedEmotional Support Animalame:
Type of animal:
Age of animal:

The above-named student has indicated that you arehtealth care providewho has suggested that having an Emotional Support Anima(ESA)n University housing will be helpful in alleviating one or more symptoms or effects of the student's disability. Generally, we accept documentation from providers in the State of Maryland or the student's home state who has personal knowledge of the student, consistent with their professional obligations. Letters purchased from the internet for set price rarely provide the information necessary to support an ESA request.

The Federal Trade Commission (FTC) has been asked to investigate websites that purport to provide documentation a health care provider in support of requests for an ESA. The websites in question offer for sale documentation that is not reliable for purposes of determining whether an individual has a disability or disability of need for an ESA because the website options and health care professionals who consult with them lack the personal knowledge that is necessary to make such determinations.

So that we may better evaluate the request for this accommodation, please answer the following questions:

## Information About the Student's Disability

Student's Name:

- 1. Federal law defines a person with a disability as someone who has a physical or mental impairment that substantially limits one or more major life activities. That suggests that a diagnosis (label) does not necessarily equate with a disability (substantialimitation). What is the nature of the student's mental health impairment (that is, how is the student substantially limite?)
- 2. Does the student require ongoing treatment?
- 3. How long have you been working with the student regarding diagnosis?

## Information About the Proposed Assistance Animal

(Please note that there are some restrictions on the kind of animal that can be approved for the residence hall; it is possible student may be approved for an ESA, based on the information you provide herealpunot be allowed to bring the specific animal named.)

1. Is this an animal that you specifically prescribed as part of treatment for the student, or is it a pet that you believe verbase have a beneficial effect for the student while in residence on campus?

2. What symptoms will be reduced by having the Emotional Support Animal?

3.
